*“A festival is an occasion of enjoyment and celebration which promotes social interaction and harmony.”*

Children will remember an important day only if they are told what the occasion signifies. So a celebration makes them aware of the world in a more fun way. Celebrating events and festivals in our school has become an integral part of learning and building a strong cultural belief. Such celebrations bring the students closer to each other's traditions and cultural beliefs and develop respect and understanding for each other's customs and traditions. Some of the days celebrated in our school are Independence Day, Janmashtami, Mother's day, Grandparent's day etc. Other famous festivals of India include SriKrishna Janmashtami, Raksha Bandhan, Holi, Diwali, etc. With so many festivals to celebrate, Indians surely have millions of reasons to rejoice! Furthermore, when students from different regions experience this joy of festivals, it truly enhances the Indian culture.

**Nothing can reduce the cognitive load of learning, but we can break down the barriers to entry and inspire our students to work harder through our practice and their community.**

## Ramayana Series

### Character Play

Apart from classroom learning, **Surevin International School** encourages students to celebrate each and every festival and event with great zeal and enthusiasm. Children are exposed to the essence of festivals in various ways like they tap their feet on peppy songs followed by cheerful rhymes and melodious songs. Each and every performance turns out to be innovative and unique in its own way. At the end of the day the boundless joy of celebrating the event is visible on the faces of all. In spite of this global pandemic, students participated in these events with a very great enthusiasm and parents too shows great interest in motivating their ward for the participation in order to achieve overall development of the child.

Due to COVID-19 outbreak, where every one was locked inside their home, SureVin decided not to stop the chain of Teaching & learning. To fulfil this, we have created a YouTube Channel for the free education of the children residing in the remote areas. Here, more than 1000 videos have been uploaded by the various teachers on the different subjects. We have ensured that the precious time of the students doesn't go in vain due to this pandemic.
